REPORT OF THE MANAGER

We wish to submit you the Audited Financial Statements of First Capital Equity Fund for the year ended 31st March 2022.

Economic and Industry Overview

The Sri Lankan economy recouped in 2021 from the widespread pandemic in 2020, albeit confronting multifaceted headwinds that emanated from the global and domestic front ultimately resulting in a social political tension in the beginning of 2022. Among all, the major issue was the foreign reserves shortage causing large overshoot of the foreign exchange creating significant vulnerabilities in the economy. Nonetheless, a successful debt restructuring programme and long overdue structural reforms in conjunction with an economic adjustment programme supported by the IMF are expected to facilitate the economy recovery in 2022 and beyond.

Until August 2021, CBSL provided monetary stimulus to support the pandemic affected economy. Since then, CBSL commenced adopting a tight monetary policy stance to preempt the inflationary pressures and to address the imbalances in the external and financial markets. As a result of tightened policy rates, overall liquidity in the domestic market remained negative towards the latter half of the year and has been dragged up to Rs. -366.3Bn causing a gradual upward adjustment in the market interest rates. However, supported by the low interest rates environment that prevailed for most part of the year, credit growth to the private sector remained robust at 13.1% YoY basis for 2021 relative to 6.5% registered in 2020.

The unit trust industry exhibited a contraction in total assets by 3% during 2021 against a backdrop of strong equity market and due to the shift of the client focus on alternative investments that yield substantial returns.

During 2021/22, there were 16 licensed unit trust management companies with 68 funds in operation. Total assets under management were Rs. 178Bn as at 31st March 2022 (Source: The Unit Trust Association of Sri Lanka).

Fund Performance

First Capital Equity Fund reported a Profit after Tax of Rs. 11.4Mn for the year ended 31st March 2022 compared to a Profit after Tax of Rs. 40Mn in the previous year (2020/21). The Reduction in Profit after Tax is due to the fair valuation loss on equity portfolio amounting to Rs. 14.8Mn (2020/21 – fair valuation gain of LKR 23.9Mn was reported).

The Fund reported a return of 14% during the year ended 31st March 2022 compared to the Equity Market return of 25% (All Share Price Index perspective). The return reported in the previous year (2020/21) was a positive return of 97% compared to the Equity Market return of 56% (All Share Price Index perspective). The Funds under Management as at 31st March 2022 were Rs. 92Mn compared to Rs. 79Mn as at 31st March 2021. The asset allocation of the Fund as at the reporting date is as follows.

Asset Allocation as at 31st March 2022

Future Outlook

Sri Lankan equity market displayed a continuous upward trajectory during most parts of 2021/22 until it confronted with a major economic shock during 4th quarter of 2021/22. Accordingly, ASPI elevated to an all-time high while reaching beyond 13,000 points during mid Jan 2022. Low interest rate environment coupled with the monetary stimulus were able to provoke the positive sentiment of equity investors during the first half of the year, thus attracting a substantial flow of funds towards the equity investments. However, with the heat of severe economic uncertainties amidst dwindling foreign reserves and heightened global inflation, equity market lost its momentum, and the investor confidence was further smashed by the recent political unrest in the country.

However, with the ease of political instability upon the appointment of new PM and the confidence placed on the competencies of the higher officials at the CBSL to drift the economy to a recovery path, the equity market recently demonstrated a gradual restoration of confidence. We expect equity investor optimism to improve with the smooth functioning of corporate sector along with proper investor awareness. However, at the current economic situation with high interest rates and supply scarcities, we expect equity market indices to remain volatile. The equity valuations are also expected to get impacted by the higher expected rate of required returns as opposed to heaven investments.

Therefore, we anticipate tough bets on a substantial upside potential on the equity front in the short to medium term. Nevertheless, a gradual turnaround in the equity market performance can be expected in the long-term upon achieving overall economic stability following the debt restructuring initiative and entering into an IMF support program.

Appreciations

We take this opportunity to thank our valued unitholders for the confidence placed in us. We also place on record our appreciation for the unstinted support extended by the Securities and Exchange Commission of Sri Lanka and our Trustee, Bank of Ceylon.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF FIRST CAPITAL EQUITY FUND

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of First Capital Equity Fund ("the Fund"), which comprise the statement of financial position as at 31 March 2022, and the statement of profit or loss and other comprehensive income, the statement of changes in unitholders' funds and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the fund as at 31 March 2022, and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the fund in accordance with the ethical requirements of the Code of Ethics issued by CA Sri Lanka (Code of Ethics) that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The fund management company is responsible for the other information. The other information comprises the report of the manager, but does not include in the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information included in the Manager's report and we will not, express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The fund management company is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards and for such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Fund manager is responsible for assessing the fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless fund manager either intends to liquidate the fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by fund manager.
- Conclude on the appropriateness of fund manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

These financial statements also comply with the requirements of the Rule 27(3) of the Unit Trust Code of September 2011 issued by the Securities and Exchange Commission of Sri Lanka under the Act No. 36 of 1987 and the trust deed.

**FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

1. Reporting entity

First Capital Equity Fund is an Open-Ended Unit trust approved by the Securities and Exchange Commission of Sri Lanka on 30 July 2015.

The registered office/ place of business of the unit trust is located at 2, Deal Place, Colombo 3. First Capital Asset Management Limited is the Managing Company of First Capital Equity Fund while Bank of Ceylon has been appointed as the Trustee.

1.1. Principal activities

The fund engages in investment in equity shares on behalf of its clients.

There were no significant changes in the nature of the principle activities of the fund during the year under review.

1.2. Approval of financial statements

These financial statements of the fund for the year ended 31 March 2022 was authorised for issue by the Fund Management Company on 10 June 2022.

2. Basis of preparation

2.1. Statement of compliance

The financial statements of the fund which comprise the statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in unitholders' funds, statement of cash flows and notes thereto have been prepared in accordance with the Sri Lanka Accounting Standards (SLFRS and LKAS) laid down by the Institute of Chartered Accountants of Sri Lanka and adopted as directed by Securities and Exchange Commission of Sri Lanka.

The statement of financial position is presented on a liquidity basis and assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current.

2.2. Basis of measurement

The financial statements have been prepared on the historical cost basis and applied consistently with no adjustments being made for inflationary factors affecting the financial statements, except for the financial assets recognised through profit or loss are measured at fair value.

2.3. Functional and presentation currency

The financial statements are presented in Sri Lankan Rupees, which is the fund's functional currency.

2.4. Use of estimates and judgments

The preparation of financial statements in conformity with the Sri Lanka Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in the relevant Notes as follows.

- Recognition and measurement of financial instruments (Note 4.1.1 to 4.1.5)
- Identification, measurement and assessment of impairment (Note 4.1.6)

**FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

2.5. Going concern

The Fund Managing Company has made an assessment of the fund's ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, fund manager is not aware of any material uncertainties that may cast significant doubt upon the fund's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

3. Materiality and presentation

Each material class of similar item is presented separately in the financial statements. Items of dissimilar nature or function are presented separately unless they are immaterial.

Assets and liabilities are grouped by nature and listed in an order that reflects their relative liquidity and maturity pattern. Where appropriate, the significant accounting policies are disclosed in the succeeding notes.

Assets and liabilities are offset and the net amount reported in the statement of financial position, only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously. Income and expenses are not offset in the income statement, unless required or permitted by Sri Lanka Accounting Standards.

4. Significant accounting policies

4.1. Financial Instruments

4.1.1. Initial Recognition

Financial assets and liabilities are initially recognized on the trade date, i.e the date that the Fund becomes a party to the contractual provisions of the instrument. This includes purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace.

4.1.2. Initial measurement of financial instrument

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. At initial recognition, the Fund measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in the statement of profit or loss.

4.1.3. Measurement categories of financial assets and liabilities

The Fund classifies all its financial assets in the following measurement categories:

- those to be measured at amortised cost
- those to be measured at fair value through profit or loss

Financial liabilities of the Fund are measured at amortised cost, and includes all financial liabilities, other than those measured at fair value through profit or loss. The financial liabilities of the Fund include accrued expenses and other payables.

4.1.4. Subsequent measurement

Amortised cost: A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

4.1.4. Subsequent measurement (Contd.)

Debt instruments at amortised cost in the statement of financial position comprise of investments in Resale agreements against Government Securities. Any gain or loss arising on de-recognition is recognised directly in profit or loss and presented in realised gain/(loss) on debt instruments held at amortised cost.

FVPL: A financial asset is measured at fair value through profit or loss if:

- (a) its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding
or
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell
or
- (c) at initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminate or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within unrealised gains/(losses) in the period in which it arises. Financial assets at fair value through profit or loss at statement of financial position comprise of investment in Government Securities and Corporate Debt Securities.

4.1.5. Financial liabilities

a) Initial recognition and measurement

The Fund determines the classification of its financial liabilities at initial recognition.

The Fund's financial liabilities comprise of accrued expenses and other payables in the Statement of Financial Position.

b) Subsequent measurement

The measurement of financial liabilities depends on their classification as described below:

Other financial liabilities

After initial recognition, other financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the profit or loss and other comprehensive income statement when the liabilities are derecognised as well as through the EIR amortisation process.

4.1.6. Identification, measurement and assessment of impairment

The Fund assesses on a forward-looking basis, the expected credit losses (ECLs) associated with its debt instruments not held at fair value through profit or loss. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures from which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

**FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

4.1.6. Identification, measurement and assessment of impairment (Contd.)

The Fund uses the ratings from either Fitch Rating Lanka Limited or ICRA Lanka Limited as applicable to determine the significant deterioration in credit risk and to estimate the ECLs.

Consistent with the policies of the Fund, investments when rated below BBB- are considered as non-investment grade investments and the Fund considers such investments as having incurred significantly deteriorated credit risk. Such investments are considered for lifetime ECL calculation.

Further, movements within the ratings of the investment grade stipulate significant deterioration of credit risk. Significant deterioration is measured through a two notches downgrade of the external credit rating of the counterparty since the origination of the instrument.

For debt instruments at amortized cost issued by Sovereign, the Fund applies the low risk simplification.

At each reporting date the fund assesses whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. A financial asset or a group of financial assets is impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the assets(s), and that the loss event has an impact on the future cash flows of the asset(s) that can be estimated reliably.

Objective evidence that financial assets (including equity securities) are impaired can include significant financial difficulty of the borrower or issuer, default or delinquency by a borrower, restructuring of a loan or advance by the fund on terms that the fund would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group.

The fund considers evidence of impairment for loans and advances at both a specific asset and collective level. All individually significant loans and advances are assessed for specific impairment. All individually significant loans and advances found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and advances that are not individually significant are collectively assessed for impairment by grouping together loans and advances with similar risk characteristics.

In assessing collective impairment, the fund uses of historical trends of the probability of default, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical data.

Impairment loss on assets carried at amortised cost is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the asset's original effective interest rate. Impairment loss is recognised in profit or loss and reflected in an allowance account against loans and advances. Interest on impaired assets continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Impairment loss on fair value through other comprehensive income is recognised by transferring the cumulative loss that has been recognised in other comprehensive income to profit or loss as a reclassification adjustment. The cumulative loss that is reclassified from other comprehensive income to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortisation, and the current fair value, less any impairment loss previously recognised in profit or loss. Changes in impairment provisions attributable to time value are reflected as a component of interest income.

**FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

4.1.6. Identification, measurement and assessment of impairment (Contd.)

If, in a subsequent period, the fair value of an impaired fair value through other comprehensive income increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, then the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. However, any subsequent recovery in the fair value of an impaired fair value through other comprehensive income equity security is recognised in other comprehensive income.

4.1.7. Sale and repurchase agreements

Securities sold subject to repurchase agreements (repos) remain on the Statement of Financial Position, the counterparty liability is included under borrowings. Securities purchased under agreements to resell (reverse repos) are recorded as loans and advances. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest method.

There were no sale and repurchase borrowings as of year end 31 March 2022 and 31 March 2021.

4.1.8. Impairment of non-financial assets

The carrying amounts of the fund's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less costs to sell. For intangible assets that have indefinite useful lives, the recoverable amount is estimated each year. An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Impairment loss is recognised in profit or loss.

An impairment loss recognised in prior periods is assessed at each reporting date for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

4.1.9. De-recognition

A financial asset is de-recognised when,

- 1) The rights to receive cash flows from the asset have expired.
- 2) The Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either,
 - The Fund has transferred substantially all the risks and rewards of the asset or
 - The Fund has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

4.1.10. Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount reported in the statement of financial position if, and only if:

- there is a currently enforceable legal right to offset the recognised amounts and
- there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

4.2. Dividend payable

Dividend payable is recognised at the time the dividend recommended and declared by the Board of Directors of the fund managing company.

**FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

4.3. Provision

A provision is recognised if, as a result of a past event, the fund has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

4.4. Commitments and contingencies

All discernible risks are accounted for in determining the amount of all known liabilities.

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is not probable or cannot be reliably measured. Contingent liabilities are not recognised in the Statement of Financial Position but are disclosed unless they are remote.

4.5. Interest

Interest income and expenses are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the fund estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

Interest income and expenses presented in the statement of profit and loss and other comprehensive income include interest on financial assets and financial liabilities measured at amortised cost calculated on an effective interest basis and fair value changes in financial asset measured at fair value through profit and loss.

Fair value changes on all other financial assets and liabilities carried at fair value through profit or loss, are presented in net trading income in the statement of comprehensive income.

Interest income is recognised on net of withholding tax up to 31 December 2019 and on gross basis with effect from 1 January 2020 in line with the notice issued by Department of Inland Revenue on changes to Inland Revenue Act No. 24 of 2017 as amended by the Inland Revenue (Amendment) Act No. 10 of 2021.

4.6. Gain/ (loss) on securities

i. Unrealised gains / (losses) on financial assets at FVTPL

Unrealised gains / (losses) on financial assets at FVTPL includes all gains and losses that arise from changes in fair value of the financial assets at FVTPL as at the reporting date.

ii. Realised gains / (losses) on financial assets at FVTPL

Realised gains / (losses) on financial assets at FVTPL includes realised trading gains and losses on sale of quoted equity securities.

4.7. Income tax expenses

The provision for income tax is based on the elements of income and expenditure as reported in the financial statements and computed in accordance with the provisions of Inland Revenue Act.

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. The fund is not liable to pay income tax as at the reporting date in accordance with the Inland Revenue Act No. 24 of 2017. The fund's income generated through investment business are treated as "pass through vehicles" under the provisions of Inland Revenue Act No. 24 of 2017 as amended by the Inland Revenue (Amendment) Act No. 10 of 2021.

**FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

4.8 Expenses

The management, trustee and custodian fees of the fund as per the trust deed is as follows,

Management fee	-	1 % p.a. of net asset value of the fund calculated on a daily basis
Trustee fee	-	0.23% p.a. of net asset value of the fund calculated on a daily basis

4.9 Unitholders' funds

Unitholders' funds have been calculated as the difference between the carrying amounts of the assets and the carrying amounts of the liabilities, other than those due to unitholders' as at the reporting date.

4.8. Statement of cash flows

The statement of cash flows has been prepared using the ""Indirect Method"" of preparing cash flows in accordance with the Sri Lanka Accounting Standard LKAS 7 - "Statement of Cash Flows". Cash and cash equivalents comprise short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Presentation

Assets and liabilities are grouped by nature and listed in an order that reflects their relative liquidity and maturity pattern. Where appropriate, the significant accounting policies are disclosed in the succeeding Notes.

4.9. Events occurring after the reporting period

Events occurring after the reporting period are those events, favorable and unfavorable, that occur between the reporting date and the date the financial statements are authorised for issue.

All material and important events that occurred after the reporting date have been considered and appropriate disclosures are made in the financial statements.

5. Comparative information

The comparative information is re-classified wherever necessary to conform with the current year's classification in order to provide a better presentation.

As at 31 March 2021

Financial assets measured at fair value

Financial assets recognised through profit or loss - measured at fair value

- Investment in listed shares	72,964,302	72,964,302	-	-	72,964,302
Total financial assets measured at fair value	72,964,302	72,964,302	-	-	72,964,302

Level 1 - Financial Instruments that are measured in whole or in part by reference to published quotes in an active market. A Financial Instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Level 2 - Financial instruments that are measured at fair value on regular basis. As market quotes generally are not readily available or accessible for these securities, their fair value measures are determined using relevant information generated by the market transactions involving comparable securities.

Level 3 - Financial Instruments that are not supported by observable market prices information.

Due to the nature of the short term maturity, Carrying value of the financial asset at amortised cost are approximated to their fair value.

FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022

18. Financial risk management

Overview

The fund has exposure to the following risks via financial instruments.

- Market risk
- Liquidity risk
- Credit risk
- Operational risk

This Note presents information about the fund's exposure to each of the above risks and the objectives, policies and processes for measuring and managing risk.

18.1 Risk management framework

The Board of Directors of the fund management company has the overall responsibility for the establishment and oversight of the fund's risk management framework. The Managing Company has established an Enterprise Risk Management Committee (ERMC) which is tasked with reviewing wide-ranging risk categories that includes market, liquidity, credit and operational risk. The committee members have been assigned the responsibility to manage these risks prudently.

Fund's risk management policies are established to identify and analyse the risk confronted by the Unit Trust, to set appropriate risk limits and controls and to monitor risk and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered.

18.1(a) Market risk

Market risk is the risk that changes in market prices, such as interest rates will affect the fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Management of market risk includes the following elements.

- Overall authority for managing market risk is vested with the Board of Directors.
- The operational authority for managing market risk is vested with the Investment Committee (IC).
- Interest rate risk is managed within the approved limits by the Investment Committee.

Price Sensitivity as follows:

	Effect on the profit or loss for the year 2021/2022 Rs.	Effect on the profit or loss for the year 2020/2021 Rs.
Increase in share	576,843	729,643
Decrease in share price - 1%	(576,843)	(729,643)

FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022

18.1(b) Liquidity risk

Liquidity risk is the risk that the fund will not have adequate financial resources to meet fund's obligations as when they fall due. This risk arises from mismatches in the timing of cash flows.

Management of liquidity risk includes the following elements:

Taking steps to ensure, as far as possible, that it will always have adequate financial resources to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the fund's reputation.

Maturity analysis of the financial assets and financial liabilities

FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022

18.1(c) Credit risk

Credit risk is the risk of financial loss to the fund if a client or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the fund's investment in corporate debt securities and investment in reverse repo agreements.

Management of credit risk includes the following components:

- Formulating credit policies in consultation with business units covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures and compliance with regulatory and statutory requirements.
- Establishing the authorisation structure for the approval and renewal of credit facilities.
- Limiting concentration of exposures to counterparties.
- Reviewing compliance through regular audits by internal audit.

Total	895,544	72,964,302	3,192,230	77,052,076

18.1 (e) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the fund's involvement with financial instruments, including processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior.

The fund's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the business reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall fund's standards for the management of operational risk in the following areas:

- Requirements for appropriate segregation of duties, including the independent authorisation of transactions.
- Requirements for the reconciliation and monitoring of the transaction
- Compliance with regulatory and other legal requirements.
- Documentation of controls and procedures.
- Development of business contingency plans.
- Training and professional development.
- Ethical and business standards.
- Risk mitigation, including insurance where this is effective.

Compliance with fund's internal controls and procedures is supported by a programme of periodic reviews undertaken by Internal Audit. The results of internal audit reviews are discussed with the management of the business unit with summaries submitted to the Audit Committee.

First Capital Asset Management Limited manages licensed Unit Trusts namely First Capital Wealth Fund, First Capital Fixed Income Fund, First Capital Gilt Edged Fund, First Capital Money Market Fund and First Capital Equity Fund which are also treated as Related Parties of the Company.

The Fund carries out transactions with parties who are defined as related parties as per Sri Lanka Accounting Standard (LKAS 24), "Related Party Disclosure", in the ordinary course of its business. The details of such transactions are reported below. The pricing applicable to such transactions is based on the assessment of risk and pricing model of the Fund and is comparable with what is applied to transactions between the Fund and its unrelated customers. Related party transactions were made on terms equivalent to those that prevail in arm's length transactions.

FIRST CAPITAL EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022

19.4 Transactions with key management personnel (KMP) and their close family members (CFM)

According to Sri Lanka Accounting Standard LKAS 24 - "Related Party Disclosures", Key Management Personnel, are those having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity. Accordingly, the Board of Directors of Managing company and its parent companies has been classified as key management personnel of the entity.

Close Family Members of a Key Management Person are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the Entity. They may include;

- a. The individual's domestic partner and children;
- b. Children of the individual's domestic partner; and
- c. Dependents of the Individual or the individual's domestic partner

Close Family Members are related parties to the Entity.

Transactions with KMP/CFM	<u>Year ended 31.03.2022</u>		<u>Year ended 31.03.2021</u>
